On April 27<sup>th</sup>, 2022, the Parcel Map Committee approved a tentative Parcel Map (PM#4287) which would divide 4.77 acres of RRS-2 (Residential, Rural, Single-Family District-2 acre) zoned property into two parcels (2 acres & 2.77-acres). The tentative map is exempt from any environmental assessment due to Categorical Exemption 15315 Class 15. The exemption applies to any division of property into four or fewer parcels within a residential urbanized area. The proposed division is in conformance with the General Plan and zoning designations, does not have any variances, and does not have a slope greater

than 20 percent. Per the applicant's operational statement, the proposed division will facilitate future residential developments for each parcel.

A request to appeal the Parcel Map Committee's decision was initiated by surrounding property owners within the 10-day appeal period. Per the Madera County ordinance (Sec.17.72.140 (h)), a decision made by the Parcel Map Committee may be appealed to the Planning Commission and/or Board of Supervisors. The hearing before the planning commission shall be noticed and conducted upon the following conditions (Sec.17.72.141):

- A. The commission shall consider the division of land and determine whether the division is in accordance with the rules and regulations established by state statute, and the ordinances of the county and whether any substantial injury would be caused to any real property right or interest of any person objecting to said parcel map.
- B. The commission may approve, disapprove or approve said division of land upon specific terms and conditions.
- C. The order of the planning commission shall be followed in the processing of said parcel map.
- D. The order of the commission may be appealed to the board of supervisors by any department, or any person appearing at said hearing and adversely affected by the decision thereof. Said appeal shall be made in writing within fifteen days from the date of the decision by the planning commission, upon the payment of an appeal fee.
- E. Failure to file the appeal within the time specified herein is jurisdictional.

The application was circulated to internal and external agencies for comments, including Native American tribes per Assembly Bill 52 requirements. Comments were received from Environmental Health, Public Works, and the Assessor's Office. Environmental Health has recommended a Shared Water Well Agreement between parcels and full compliance with Madera County Code Title 13 as it relates to water and sewer. Public Works has required the existing 30' wide easement along the west side of the parcel shall be dedicated/offered in fee.

## FINDINGS OF FACTS

The Madera County Zoning Ordinance requires that the following findings of fact must be made by the Planning Commission to grant approval of this tentative parcel map:

1. *The proposed project does not violate the spirit or intent of the Zoning Ordinance in that the proposed parcel map complies with the existing general plan and zoning parcel size requirements. The RRS-2 zone district (Residential, Rural, Single Family, 2 Acre) and RR (Rural Residential) designations are compatible.*
2. *The proposed project is not contrary to the public health, safety, or general welfare. No activities from the proposed project are projected to have a significant impact on the public's health, safety, or general welfare. Conditions have been placed to mitigate any water and sewer related issues.*
3. *The proposed project is not hazardous, harmful, noxious, offensive, or a nuisance because of noise, dust, smoke, odor, glare, or similar, factors, in that the project must*

PM#4287

adhere to the conditions of approval as well as mitigation measures. The proposed parcel map is not projected to have any hazardous elements involved.

*4. The proposed project will not for any reason cause a substantial, adverse effect upon the property values and general desirability of the surrounding properties.* Due to the contiguous residential parcels within the region, the proposed parcel map will not have a negative effect on surrounding properties. Future development on the parcels will include residential structures which are in line with the Valley Lake Ranchos subdivision.

**GENERAL PLAN CONSISTENCY:**

The General Plan is listed as RR (Rural Residential) which provides for single-family detached homes, secondary residential units, limited agricultural uses, public and quasi-public uses, and similar and compatible uses. The property is zoned RRS-2 (Residential, Rural, Single Family – 2 Acre) with MHA (Manufactured Housing Architectural Overlay), which requires a minimum lot area of 2 acres and allows for single-family dwellings/mobile homes and accessory dwelling units.

**RECOMMENDATION:**

Staff recommends the Planning Commission deny the appeal of the Parcel Map Committee's decision to approve tentative Parcel Map #4287.

May 2, 2022

To whom it may concern:

We are writing regarding the proposed division of the property located on the northwest corner of Ave 21 ½ and Elmwood Road in Madera County (APN 031-512-003) into two smaller parcels rather than remaining a single parcel. We have multiple concerns regarding this proposal, the most pressing of which is the issue of water. As you know, California is in the midst of a severe drought. Most of the wells in the vicinity of this parcel have gone dry, including ours (and we are the direct neighbors of this property). It is worrisome that instead of having a single well drilled next door, with this proposal (and any other parcels that you choose to subdivide), multiple wells would be drilled, furthering the depletion of the water table.

While we understand that the impetus for approving the division of the property into separate parcels is to therefore double the property taxes received, it should be noted that we have not seen our tax dollars at work in our neighborhood. Multiple properties are nothing but undeveloped trash heaps with humans living in filth and squalor without proper running water or sewage disposal (ie massive code violations). The parcel that we are discussing is currently being used as a haven for the owner's trash, including a non-operable limousine rusting away and remaining an eyesore. If you review the sheriff's logs, you will also note that each weekend, there are multiple phone calls from this neighborhood regarding noise complaints from out of control parties. The prospect of having not one, but two homes adjacent to us therefore doubles the possibility of raucous parties each weekend. We purchased in this area for the sole purpose of having larger lots and less population density, as did many others. By dividing the parcel, you are opening the door for all of the other unsold larger lots to do the same, effectively doubling the possible increase in population from its current potential.

While we realize that this project has already been approved and this is unlikely to change the outcome, we wanted to make it known that we do not support this decision. Please feel free to contact us if you would like to discuss our concerns further.

Sincerely,

Mara Franz

Duskin Franz

We also collected signatures from multiple neighbors in the direct vicinity of this property who also feel the same as we do.
